EXAMINER'S AMENDMENT

The non-elected and withdrawn claims 14-25 and 39-50 have been cancelled. And the claims 4 and 29 have been rejoined in this action because they depend from allowed claims.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Dale C. Barr on 7/12/07.

The application has been amended as follows:

Claim 1, in line 9, after the phrase "within a second frequency range", the phrase -- different from the first frequency range-- has been inserted.

Claim 26 in line 13, after the phrase "at a second range of frequencies", the phrase -- different from the first frequency range-- has been inserted.

Claim 51, in line 17, after the phrase "at a second range of frequencies", the phrase -- different from the first frequency range-- has been inserted.

Withdrawn Claims 14-25 and 39-50 have been cancelled.

Claims 4 and 29 have been rejoined.

2. The following is an examiner's statement of reasons for allowance: the prior art of record all failed to show either alone and/or in combination a first and second actuator with different frequency ranges being aligned and coupled to one another and actuating over a third distance when combined. Also with respect to claim 26, the prior art does not disclose the 2 actuators with different frequencies and also one of them being hydraulic and the other being piezoelectric. Also with respect to claim 51, the prior art does not disclose an aircraft with the 2 actuators with different frequencies and also coupled with a linkage and having a motion sensor and moving a third distance when they act together.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
